Basic Skills for BYOD Elementary Students

To assure students make the best use of instructional time with their own devices, it will be helpful for them to be able to independently do the following on their devices.

- Power on/off
- Adjust volume up/down/mute
- Select appropriate WiFi network
- Log in to school network
- Plug in headphones
- Open web-browser to access internet
- Take a picture
- Take a video
- Switch between front-and-rear facing cameras
- Bookmark a website and add shortcut to home screen
- Take a screenshot
- Access photos and videos on device
